MESSAGE FROM CEO MR. HURŞİT ZORLU

"We are happy to announce that our consolidated net sales grew by 22% and EBITDA by 31% in the first nine months of the year, linked with our major operations' strong growth trends, which were also in place in the first half. As Anadolu Group, we continue to execute our prudent and effective financial management approach with decisiveness and precision, targeting sustainable growth.

In this quarter, solid performance of Beer operations, mainly due to the positive momentum in Russia and Ukraine, continued to make substantial contribution to our results. In Soft Drinks operations, operational and financial position remained strong in the third quarter and operations recorded the highest-ever EBIT margin in Turkey in 9M2019. In Migros, while market share gains in both total and modern FMCG continued, EBITDA growth outpaced the revenue growth in the third quarter of 2019 as in the previous quarters.

With the priority of generating strong free cash flow in all of our businesses, we continue to take necessary action plans and execute accordingly. On top of synergies created from our international Beer operations, strong operational profitability of Soft Drinks and Migros operations also contributed to the generation of TL 2.4 bn consolidated free cash flow in the first nine months of the year. The importance we attach to this issue will continue in the coming periods.

In this context, we are also happy that our net debt /EBITDA ratio was down to 2.0x as of 3Q19-end. We are working in a proactive manner for optimizing the level and covenants of debt structures across all of our segments.

We left behind a quarter, in which we delivered important progress in fulfilling our 2019 expectations with the financial priorities of free cash flow generation and deleveraging, as has been underlined since beginning of the year. Needless to say, we will continue to implement these financial priorities effectively in the coming periods.

*2018 Proforma figures assume realization of ABI Efes JV as of January 1st 2018 instead of actual April 1st. Therefore proforma 2018 restated results include 3 months of operation of combined business. In addition to actual results, 2018 figures also include the incremental depreciation charge in 2019 which is a result of the revaluation of fixed assets as required by IFRS 3.

**As Migros is started to be fully consolidated, net income impact for the first 4 months has been excluded from net income of other segment

AG Anadolu Grubu Holding (“Anadolu Group”, “Group”) **proforma consolidated net sales** were up by 21.9% y-o-y to TL 38.9 bn in 9M19. While Beer segment revenues increased yearly by 32.3%, followed by Migros with 24.7% and Soft Drinks with 16.3%, Retail segment’ top-line was up by 12.6%. On the other hand, revenues of Automotive segment decreased by 2.1% compared to the same period of last year and Other segment, which includes Energy and Real Estate businesses, that have relatively lower shares in the portfolio, contributed positively to the top-line growth due to the deliveries of Kartal residential project.

*Sum of segmental percentages may exceed 100% due to eliminations

Share of international sales in total sales merely increased to 31.8% in 9M19 from 31.6% in 9M18, yet EBITDA rose from 36.1% to 38.3% in 9M19, with a relatively a higher climb, which is attributable to the positive contribution from international beer operations.

Proforma consolidated EBITDA of the Group increased by 31.0% to TL 4.7 bn in 9M19, thanks to strong operational profitability of Beer, Soft Drinks and Migros during the nine months of the year. While share of Soft Drinks segment in proforma consolidated EBITDA was at 37%, Beer and Migros constituted 28% and 27% shares, respectively. Remaining Automotive, Retail and Other segments had total of 10% share in EBITDA.

As a result of the strong EBITDA generation in the three major segments that we operate coupled with the relative stabilization and even appreciation TL in 2Q19 and 3Q19, net loss* figure significantly decreased to TL 133 mn in 9M19 vs. TL1.5 bn in 9M18. Anadolu Group reported **net income** of TL 272 mn in 3Q19 compared favorably to net loss of TL 782 mn in 3Q18, again thanks to appreciation of TL and better operational profitability.

In line with the efforts to increase **free cash flow generation**, a top agenda item for 2019, Anadolu Group generated TL 2.4 bn FCF in the first nine months of the year, thanks to the synergies in Russia and Ukraine together with strong operational profitability of Migros and Soft Drinks operations and asset divestitures of Migros as well. Seasonality in Beer, Soft Drinks and Migros was another factor that increased free cash flow generation in the third quarter.

In regard of the plans for effective management of debt and deleveraging, proforma consolidated **net debt/EBITDA** decreased by 70 bps to 2.0x as of 3Q19-end compared to year-end. Strong free cash flow generation, improvement in the profitability and efficiency of our businesses were the main reasons for this decline. Net debt/EBITDA ratios were even lower at comfortable levels of 1.2x and 1.1x for Beer and Soft Drink segments, respectively. Migros also substantially decreased its leverage ratio to 1.3x as of 3Q19-end vs. 2.3x of 2018 year-end. Additionally, Automotive segment Net debt/EBITDA decreased by 120 bps to 4.9x as of 3Q19-end.

As of September 19-end, 35% of **proforma consolidated debt** is short-term and 65% is long-term.

In order to refrain from the operational and financial risks related to currency, our Group companies continue to use hedging instruments in 2019. In line with the strategy of deleveraging the businesses through cash generation, strategic options are evaluated for the divestiture or further utilization of non-operational assets.

* 2018 figures assume realization of ABI Efes JV as of January 1st 2018 (instead of actual April 1st). Therefore 2018 restated results include 3 months of operation of combined business. In addition to actual results, 9M18 figures also include the incremental depreciation charge in 9M19 which is a result of the revaluation of fixed assets following the merger in Russia & Ukraine as required by IFRS 3.

Beer segment **total sales volume** increased by 4.2% in 3Q19 driving the nine months cumulative sales volume to 27.6 mhl, up by 6.2% compared to the same period of last year. In Turkey beer, higher prices and weak consumer sentiment put pressure on demand in the FMCG sector, beer sector also declined by 6.1%, exhibiting a similar trend. **In international beer operations**, Russian beer market posted low-single digit growth in 9M2019 over the same period of last year, where July and August volumes showed decline due to unfavorable weather conditions and the strong base of last year. Market share gains in super premium and mainstream segments as well as in modern and traditional trade channels contributed to our strong performance in the period. Thus international beer sales volumes were up by 8.4% y-o-y to 23.5 mhl. Share of international beer sales volume was 85% in total sales.

Net sales revenues increased by 20.4% in 3Q19 on a yearly basis to TL 3.2 bn, increasing the 9M19 top-line to TL 8.2 bn, up by 32.3%. **Turkey beer operations** benefited from price increases as well as positive category mix. On the other hand, volume growth and higher prices played important roles for top-line growth in **international operations**. Share of international beer revenues reached 79% of total revenues in 9M19.

Gross profit margin of beer segment recorded at 44.5% in 3Q19, implying an 280 bps increase to 40.8% in 9M19. In Turkey, increase in cost of sales was similar to previous quarters and was driven by higher raw material, packaging and energy prices as well as package mix. On the other hand, gross profit margin expansion of international operations more than offset the contraction in the domestic market which was attributable to better operating leverage due to strong topline growth, favorable category mix as well as extraction of synergies.

EBITDA emerged at TL 1.1 bn in 9M19 which is %66.1 higher compared to the same period of last year. Although operating expenses increased in Turkey, which is attributable mainly to commitment to invest in brands and led to an increase in our marketing expenses, EBITDA of international operations benefited from the improvement in gross profitability and further synergy generation in OPEX. Share of EBITDA in international operations constitute 80% of total EBITDA.

Beer segment recorded TL 312 mn **net profit** in 3Q19, driving nine months cumulative bottom-line to TL 522 mn, thanks to higher operational profitability coupled with lower FX losses.

Consolidated sales volume decreased merely by 0.8% to 415 mn uc in 3Q19, cycling 2.9% growth in 3Q18. Thus Soft Drinks segment sales volume reached 1.1 bn uc in 9M19. Share of sales volume of international operations comprised 51% of total sales.

Net sales revenues rose by 6.4% in 3Q19, driven by Turkey while International operations had a negative impact on consolidated turnover due to lower revenues generated along with negative currency conversion impact in the quarter and drove 9M19 revenues to TL 10.0 bn, up by 16.3% y-o-y. **In Turkey**, net sales revenues was up by 23.9% in 3Q19, on the back of increase in list prices. NSR per unit case grew by 19.9%, mainly driven by list price adjustments, strong growth in all categories in on-premise channel and higher IC share in total sales. **In international operations**, net sales revenues decreased by %5.7 in 3Q19 y-o-y translating into 1.2% growth on an FX-neutral basis and top-line growth reached 11.1% in 9M19. Share of international soft drinks sales is 53% of total revenues.

Gross profit margin increased by 50 bps to 34.7% in 3Q19, which was mainly attributable to improving gross margin of Turkey operation, corresponding to gross profit margin of 34.3% in 9M19 which remained unchanged. While **Turkey operations** benefited from increasing net sales revenue per unit case and lower raw material costs as a percentage of revenues and increased by 190 bps to 41.6% third quarter and up by 280 bps to %42.2 in 9M19. In **International operations**, gross margin declined due to higher raw material costs in Central Asia as well as lack of Turkmenistan's contribution due to production stoppage. Thus, higher gross profit margin of Turkey operations offset lower margin from international markets.

EBITDA margin remained almost unchanged at 22.3% in 3Q19 and drove nine months cumulative EBITDA to TL 2.1 bn with a margin of 20.9% in 9M19. Share of EBITDA for international operations stands at 51%.

Net income was TL 556 mn in 3Q19, implying a significant growth, on the back of higher EBIT and FX gains. Soft Drinks segment recorded net income of TL 965 mn in 9M19.
